DESCRIPTION

- 7a. Architectural style: Gothic Revival
- 7b. Briefly describe the present *physical appearance* of the site or structure and describe any major alterations from its original condition:

This one and a half story structure is a fine example of Gothic Revival architecture. The first floor is a simple balance of tall window door and paved windows in a square projecting bay. The porch is supported by three thin posts and an engaged column in the rear. Under the boxed eaves of the porch roof and across the top of the bay is a band of dentils. The roof is a very steep gable with a frontal gable divided by a narrow window. Decorative carved barge boards line the gables. The sheathing is a medium wide horizontal board.
