### High Speed Rail Workshops to be held in South County

The San Jose-to-Merced High-Speed Train Section Team is holding community workshops to explain the evolution of the project in South Santa Clara County. Using statewide criteria and community feedback, the team balanced competing values to develop alignment alternatives to study in the Draft Environmental Impact Report/Statement. To learn more about the process, including how community input has informed the current alignments and how to further integrate high-speed rail appropriately in South Santa Clara County, attend a workshop January 25 or 27 in the geographic area of the most interest to you.
