**DESCRIPTION**

7a. Architectural style: **California Bungalow**

7b. Briefly describe the present physical appearance of the site or structure and describe any major alterations from its original condition:

This one story structure is of rectangular form, sheathed in stucco, with wood trim. The low pitched gabled roof with wide, unenclosed eaves overhangs decorative beams and braces. The porch set to one side, has a projecting low gable roofline. Windows on the front are in pattern with mullion divisions or have been replaced. Porch supports are squared and continue to the ground line. Built simply to accommodate working people, the economy of simple design is visible in the entire group. However, individual design elements enhance this early Craftsman development.

SIGNIFICANCE

19. Briefly state historical and/or architectural importance (include dates, events, and persons associated with the site.)

From the Gilroy Advocate of November 19, 1921

NEW HOMES ON EAST SIXTH STREET

Holmes Brothers inform us that they are building from six to eight modern bungalows on the Wilburn (B.) Sanders block on East Sixth Street, bounded by Maple and Chestnut Streets. This is the old Zuck property. The bungalows will cost from $2500 to $3500 and be of stucco exterior of a new cement formation such as is used in the bungalows of southern California. It has been used successfully on expensive residences in the southland.

The first bungalow, of five rooms at the corner of Sixth and Chestnut Streets is now in course of construction. An alleyway will be run at the rear of the cottages between Chestnut and Maple Streets. Six houses will be erected on Sixth Street and probably two on Maple Street which will be sold to prospective tenants. The development of this style home by the Holmes Brothers was successful and eleven were completed.
